Revised version of the briefing document. FFRRO opted not to share the briefing with the Principals since OGC did not have time to complete its review. FFRRO suggested the SEMD (me) lead the discussion of the three questions. Any reactions.

Hi All,

Attached find the agenda and briefing paper (Response to OGC and OECA's comments...). I also attached the approach used to calculate the site-specific instream water quality values, comparison of values from CWA guidance, instream water quality values and DOE values, OW comments on the calculation of the site-specific instream water quality values, and SEMD response to OW comments.

Hope this helps,
Ramon
